Formech FT10

Trimming machines for education

The FT10 trimmer is mainly aimed at the educational market, where safety is of paramount importance. An light abrasive cutting disc is rotated by the motor to slit into the side wall of the vacuum forming. The FT20 is similar to the FT10 apart from the additional fence that can be used to guide your work across the machine and the ability to angle the table top which is useful if you want to sand a draft angle on wooden pattens. The fence also includes a fitting for the attachment of a vacuum cleaner to extract any sanding or plastic particles.

Key Features

- Multi tool arbor
- Tungsten carbide abrasive disc and holder
- Tool height adjustment facility
- No-volt release switch
- Underside deflector plate to prevent motor access
- No access to sharp cutting edges

N.B: The flange cutter shown above is included in the optional tool kit or can be bought separately.

Technical Specifications FT10

Table size	Machine width	Machine depth	Machine height	Machine weight
400 x 455mm / 15.8 x 18”	400mm / 15.8”	455mm / 18”	315mm / 12.4”	19kg / 41.9lbs

Motor speed	Single phase power requirements (Europe)	Single phase power requirements (USA)	Power consumption	Cutting capacity
1380rpm	230V / 50Hz	110V / 60Hz	0.07kw	Plastic sheets up to 3mm thick
